Loss of capital

The portfolio is positioned as a long-term investment (5 years plus). The aim is to achieve a positive outcome over the investment period, although past performance is no guide to future performance and investments can fall as well as rise. **There is potential for capital loss particularly where the investment is sold during a down period.**

IMPORTANT INFORMATION

What is the fund split between fixed income, real assets and alternatives, and UK and international assets? How does this compare?

	Fixed Income	Real Assets & Alternatives	UK and International Assets
Income Portfolio	21.00%	19.00%	60.00%
Positive Impact Income Portfolio	20.00%	32.00%	48.00%

What is the difference between the aim of the strategies and benchmark?

The target or aim is to deliver a yield of 2.5% p.a. over ten years.

Do we guarantee a yield of 2.5% p.a. over a ten-year period?

This is our stated aim. We do not guarantee this.

Why do we have a benchmark?

These are slightly different to our other portfolios in that we target a yield rather than a return. However, we use the AFI Balanced Index as a comparison. This is made up of the recommended portfolios of a panel of UK financial advisers. The portfolios were launched on 1 July 2022.

The first table shows the current yield vs the target yield. The second table is total return performance over 1-year and since launch.

	Yield	
Income Portfolio	4.97%	
Target	3.00%	
Positive Impact Income Portfolio	4.44%	
Target	2.50%	
	1-year	Since launch (p.a.)
Income Portfolio	-2.21%	1.24%
Benchmark	-1.33%	2.58%
Positive Impact Income Portfolio	-7.82%	-2.50%
Benchmark	-1.33%	2.58%

How do we measure performance?

Portfolio Level

We have several touchpoints when monitoring performance:

1. We monitor performance monthly.
2. We have an internal monthly investment risk matrix. Within this we monitor the target return, and compare the performance to a range of discretionary managed portfolios.
3. On a quarterly basis we update the website with performance data and provide updates.
4. From September to February, we carry out a comprehensive review of the portfolios and rebalance on 1 July each year (subject to your approval).

The primary focus of this work is to understand periods of underperformance and adjust where we see appropriate.

Charges

The performance data includes the fund charges but not the platform and LWM fees. Fees are fully disclosed. Below are the fund fees as of 31 August provided by Trustnet.

	Fund fees
Cautious Portfolio	0.74%
Balanced Portfolio	0.80%
Moderately Adventurous Portfolio	0.89%
Adventurous Portfolio	0.90%
Cautious Positive Impact Portfolio	0.94%
Balanced Positive Impact Portfolio	0.91%
Adventurous Positive Impact Portfolio	0.91%
Income Portfolio	0.99%
Positive Impact Income Portfolio	1.06%

We review our charges within the Consumer Duty Fair Value Assessment. We also disclose under transparency on the website.

Additional information

Full details of the current holdings of the Cautious Positive Impact Portfolio are available on via our website - <https://lwmconsultants.com/lwm-income-positive-impact-portfolio/>

This includes quarterly market updates, performance, holdings and links to the key information documents (KIIDS).

Changing risk profile

You can review your risk rating at your annual meeting. However, you can discuss this at any time should circumstances change.

SPECIAL NOTE: You should note that past performance is not a reliable indicator of future returns and the value of your investments can fall as well as rise. The total return reflects performance without platform charges and adviser fees or the effects of taxation, but is adjusted to reflect all on-going fund expenses and assumes reinvestment of dividends and capital gains. If adjusted for platform charges, adviser fees and the effects of taxation, the performance quoted would be reduced.
